

Array problem 11:

Sort an array in waveform:

```
#include <stdio.h>

int main()
{
    int n;
    printf("Enter the number of elements: ");
    scanf("%d", &n);
    int arr[n];
    printf("Enter %d integers:\n", n);
    for (int i = 0; i < n; i++) {
        scanf("%d", &arr[i]);
    }
    for (int i = 0; i < n - 1; i++) {
        for (int j = 0; j < n - i - 1; j++) {
            if (arr[j] > arr[j + 1]) {
                int temp = arr[j];
                arr[j] = arr[j + 1];
                arr[j + 1] = temp;
            }
        }
    }
}
```

```
for (int i = 0; i < n - 1; i += 2) {  
    int temp = arr[i];  
    arr[i] = arr[i + 1];  
    arr[i + 1] = temp;  
}  
for (int i = 0; i < n; i++) {  
    printf("%d ", arr[i]);  
}  
printf("\n");  
return 0;  
}
```
